

# RECLAIM DESIGN

Reclaim Design came about during our recent travels through India and a brainstorming session in a coffee shop in Mumbai. We wanted to do something that reflected and involved our love of reducing, reusing, recycling and growing our own food. And so we came up with a range of pots, planters and vases that we think achieves this. The range is constantly morphing but you can see some of what we have made on our [Products Page](#). Until we can sort out an online store, you can buy direct from us. Just drop us a line on the [Contact Page](#). If you have any other questions, please feel free to ask.

Nix and Michael.

Recycled Pallet Planter

Hanging Recycled Pallet Planter

Recycled Plastic Pots with Fabric Decoupage

Upcycled Lightbulb Vases
